PROFESSIONAL SKILLS DEVELOPMENT CENTER · RAJSHAHI

Brand Book

How Dialogue looks, sounds and presents itself — in documents, in the classroom and in the community.

Who we are

Life-on-life language coaching and professional finishing skills, delivered by qualified foreign coaches and mentors in Rajshahi.

Dialogue is a professional skills training initiative and language center in Rajshahi, operating under SIM Bangladesh as the Professional Skills Development Program (PSDP), an approved five-year NGOAB project running from July 2026 to June 2031.

Qualified foreign coaches work life-on-life with small cohorts, so North Bengal graduates gain spoken confidence, digital skills and cross-cultural judgment, and remain contributors to Rajshahi's economy. Dialogue is a skills incubator, not a conduit for talent to leave the region.

This book sets out how that promise shows up in everything we make: a partner proposal, a classroom slide, a Facebook post.

THREE REGISTERS, ONE BRAND

- **Institutional.** Proposals, the project profile, partner letters, FD-6 annexes. Calm, square, forest and gold on white.
- **Classroom.** The dialogue-bd.com activity collection and smart-TV slides. Warm paper by day, the forest “stage” on the projector.
- **Community.** Facebook posts, flyers, the English Club and Iftar & English. Bilingual, bright and direct.

1 Voice & content

Warm, plain-spoken, convinced. We speak as a team of coaches ("we", "our coaches") to a partner or learner ("you").

PRINCIPLES

- Lead with people and practice, not scores.
- Name the method: *life-on-life*, *small cohorts of 6–8*, *every class is a workshop*, *finishing skills*.
- Use concrete nouns the reader can check: Ward No. 26, American Corner Rajshahi, Rajshahi Hi-Tech Park.
- State what we believe and what we do. Never oversell.

> *"We are not primarily a test-prep center. A high score does not teach a graduate to write formal correspondence or read an international institution well enough to work inside it."*

STYLE RULES

ITEM	RULE
Headings	Title Case: "Applied Professional English"
Body & buttons	Sentence case: "Join the club"
Uppercase	Only in kickers and footers, letter-spaced
Ranges	En dash, no spaces: "6–8"
Dates	"July 1, 2026"
Currency	"1000 Tk / student"
Registration	Quote exactly: FD-6 Ref 03.07.0000.664.68.0258.26-655; SIM Bangladesh, Reg #105
Emoji	Classroom tool only; never in documents or poster headlines

SAY

- "Qualified foreign coaches work alongside participants week after week."
- "Describe the scene, then scan the QR code to vote."
- "A skills incubator for Rajshahi."

AVOID

- "World-class", "revolutionary", exclamation marks in institutional copy.
- Promises of jobs, visas or scores.
- "Study abroad" framing.

BANGLA

Community pieces pair English with Bangla, written by a native speaker and never machine-translated. NGOAB forms such as FD-6 are completed in the Nikosh font, as the form instructs.

BANGLA	TRANSLITERATION	MEANING
বিনামূল্যে	*binamulle*	free
আসন সীমিত	*ashon shimito*	limited seats
রেজিস্ট্রেশন করুন	*registration korun*	register now

2 Logo

A key turning in a globe, set in the bowl of a forest-green "D": language unlocking the world.

Primary lockup · English & Skills Center
Use on all PSDP and current material. Full colour on white or paper only.

Circle
Avatars, profile pictures, and wherever the logo sits on forest or a photograph.

Earlier lockup · English Language Center
For English-course material that predates the Skills Center. Also supplied as a CMYK vector for print and signage.

Single ink
Photocopied handouts, stamps and one-colour print.

ALWAYS

- Place the colour logos on white or paper. The white letters ("Dia", "ENGLISH") are knock-outs.
- Keep clear space at least the height of the "D" bowl on every side.
- Keep it at least 25 mm wide in print and 90 px on screen.

NEVER

- Place the colour logo on forest, gold or a photo. Use the circle.
- Redraw, recolour, outline, stretch or add effects.
- Re-letter the lockup or set "Dialogue" in another font beside the mark.

3 Colour

Forest and gold on warm paper. Forest carries the brand; gold is chrome; paper gives the warmth of a well-used classroom.

The bright greens come from the 2019 Bangla flyers and club posts. Keep them for community publicity, as the one bright accent on forest, gold and paper. They never appear in documents or UI text.

TWO THEMES

Digital work is built from semantic colours that switch between two themes. **Paper** is the everyday web and print look. **Stage** is the dark forest used on projectors and smart TVs, where the primary action turns gold with dark gold-ink text.

1 Executive Summary

Dialogue is a professional skills training initiative and language center operating under SIM Bangladesh in Rajshahi. North Bengal produces high numbers of academically accomplished graduates, but many stall at the entrance to competitive service industries: spoken English confidence is limited, modern digital tools are unfamiliar, and cross-cultural workplace communication is unpracticed.

Our core strength is our people. Qualified foreign coaches and mentors work life-on-life with cohorts of six to eight, so participants do not learn English in isolation — they learn it embedded in Western professional culture, and acquire the finishing skills and cultural judgment that no AI tool can supply. Dialogue operates as a skills incubator rather than a conduit for talent to leave the region: graduates gain access to remote digital work and formal sector employment while remaining contributors to Rajshahi's economy.

2 The Gap We Address

REGIONAL REALITIES

- Strong reading and grammar knowledge, but hesitation in spontaneous spoken interviews.
- Lecture-based instruction leaves graduates inexperienced with modern workplace platforms and iterative task delivery.
- Cultural deference discourages clarifying questions, negotiation, and independent client management.

THE DIALOGUE RESPONSE

- Daily spoken practice with foreign coaches, supported by AI conversation tools, in a low-stakes setting.
- Every class is a workshop: pair work, drills, and curriculum delivered to participants' smartphones for live practice.
- Explicit coaching in assertive communication, interview structure, and client expectations across cultures.

"We are not primarily a test-prep center. A high score does not teach a graduate to write formal correspondence or read an international institution well enough to work inside it. Qualified foreign coaches, working alongside participants week after week, are what close that gap."

DOCUMENT ANATOMY

1. Running header: program name · document type · place
2. Masthead: "Dialogue" in display, the green program kicker, an italic tagline, the logo on white, and a 4 pt forest rule
3. Fact panel on mist with a gold left rule
4. Numbered serif sections, number in gold
5. One pull-quote band
6. Pillars with square gold bullets
7. Contact band at the foot of the last page
8. Footer on every page: SIM Bangladesh · FD-6 reference, and the email

Print never uses shadows. On the web, cards lift with shadow-card, activity panels with shadow-raised, and modals with shadow-dialog over a forest-night scrim. Focus is always a solid 2 px ring. Motion is minimal: slideshows cross-fade, nothing bounces.

CHOOSE

- Natural light, real classrooms, real participants.
- Crops at 4:3 or 16:9 with faces clear of text.
- Moments of interaction over lecture shots.

AVOID

- Filters, duotones and stock imagery.
- Text or logos over faces.
- Publishing photos of minors (school cadets) without consent.

8 Community publicity

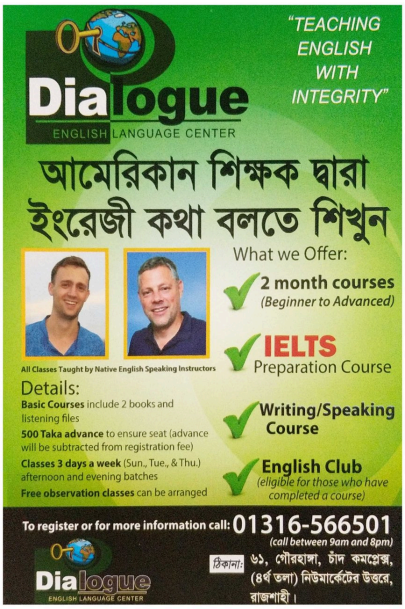

Posters for Rajshahi families and students can be louder: bilingual headlines, a large phone number, one bright accent.

POSTER CHECKLIST

- Headline in English and Bangla; decide which leads and keep it consistent.
- What, when, where: day, time, place in plain words.
- Phone number large; email **dialogue.english.bd@gmail.com** smaller.
- Logo on white, or the circle version on colour.
- One badge at most: বিনামূল্যে (*binamulle*, “free”) or আসন সীমিত (*ashon shimito*, “limited seats”).
- A real photograph of a Dialogue session.

COLOUR ON POSTERS

Keep the energy of past posts, but build new ones on forest, gold and paper, with community green as the single bright accent. Yellow bursts and red call-outs stay small.

Suggested proportion: forest · paper · gold · community green
