

Prepaid Meter

**Caged Keypad, Late Top-Up,
Delayed Balance, Checking Portal,
Long PIN Entry, Downstairs Meter**

Prepaid Meter

1. Which two scenes make checking the balance inconvenient?
2. Have you had to go downstairs to check or recharge a meter?
3. Would a live phone balance or a low-balance alert help more? Why?
4. Why does an online payment still require a trip to this meter?
5. If an alert is sent daily, what new annoyance or error might follow?
6. You have 80,000 BDT and 30 days. What one balance-or-recharge pilot would your grant test?
