

Hard Water

**Scrubbing Tiles, Strong Cleaner,
No Water Test, White Scale,
Replacing Taps, Iron Stains**

Hard Water

1. Which two scenes show what the water leaves behind?
2. What water marks or maintenance problems have you seen in Rajshahi?
3. Should the first money go to water testing or sturdier taps? Why?
4. Why might renters keep buying strong cleaner instead of fixing the source?
5. If residents use more strong cleaner, what problem may follow?
6. You have 100,000 BDT and 30 days. What one water-and-fixture pilot would your grant test?
