

Hospital Queues

**No Queue Guide, Finding a Desk,
Limited Staff, Hot Outdoor Line,
Small Waiting Room, Early Arrival**

Hospital Queues

1. Which two scenes make it hard to know where to wait?
2. What has made a hospital visit easier or harder for you or someone you know?
3. Should the first fix be shade outside or clearer registration? Why?
4. Why might one registration desk become a bottleneck?
5. If waiting moves outdoors, what new difficulty may appear?
6. You have 500,000 BDT and 30 days. What one queue-management change would your grant test?
