

Barnoi Pollution

**Washing Nearby, No Interceptor,
Dark Outflow, Open Discharge,
Floating Waste, Dumping Rubbish**

Barnoi Pollution

1. Which two scenes show waste entering the river?
2. What changes have you noticed in a river or canal near Rajshahi?
3. Should the first effort stop solid rubbish or test the water? Why?
4. Why might city drains keep sending waste into the Barnoi?
5. If one outfall is blocked, where might the water go?
6. You have 500,000 BDT and 30 days. What one pollution-monitoring pilot would your grant test?
